## SPECIAL OFFERS

1 JANUARY - 30 APRIL, 2026

### M1200

The M1200 standard sized face mill is an all-inclusive series that will improve productivity on taper 50 spindle milling machines and driven tools using 15-, 45-, and 60-degree lead angles.

- Buy **10** Inserts, get a cutter body with up to 2 teeth **FREE\***
- Buy **20** Inserts, get a cutter body with up to 4 teeth **FREE\***
- Buy **30** Inserts, get a cutter body with up to 6 teeth **FREE\***
- Buy **40** Inserts, get a cutter body with up to 8 teeth **FREE\***
- Buy **50** Inserts, get a cutter body with up to 11 teeth **FREE\***

### WK20PM GRADE INSERTS

WK20PM PVD inserts are the perfect solution for medium to rough machining applications in grey cast iron, nodular/ ductile cast iron and Compacted Graphite Iron (CGI). Whether face milling, shoulder milling, slotting or copy milling, these high-performance inserts are engineered to deliver the reliability and consistency you want across automotive, general engineering and energy segments. This PVD-coated grade enhances cutting edge strength and wear resistance when machining short-chipping materials with or without coolant.

- Buy **50** Inserts, get **20** inserts of the same grade **FREE\***

### VSM11 & VSM17

A 2-edged, 90° shoulder mill available in 11 mm and 17 mm delivering low horsepower consumption, versatility and soft cutting action in light, precise machining to medium roughing. Best for profiling, slotting, ramping up to 10 degrees, helical and circular interpolation and other milling applications.

- Buy **10** Inserts, get a cutter body with up to 2 teeth **FREE\***
- Buy **20** Inserts, get a cutter body with up to 4 teeth **FREE\***
- Buy **30** Inserts, get a cutter body with up to 6 teeth **FREE\***
- Buy **40** Inserts, get a cutter body with up to 8 teeth **FREE\***
- Buy **50** Inserts, get a cutter body with up to 11 teeth **FREE\***

\*Offers cannot be combined. Valid in EMEA only. Promotion ends April 30, 2026. WIDIA reserves the right to cancel this promotion at any time.
